- To provide necessary vocational and other forms of training for self-reliance

Impact

- Since the project was started, 12 blind and disabled brothers is staying here.
- They completed training in commercial production and sales skills.
- Today, problem of their basic needs is solved and they are selling their own manufactured goods.

- **Activity**

Why We Focus On Blind & disabled?

- Blind and disabled people neglected by society who really need help but are struggling to survive. Brothers who bravely overcome physical hardships on a regular basis.
- They don't have much choice but to depend on others for basic needs.

Problems faced by Blind & disabled ...

- No one spend enough time with Blind & disabled due to the nature of their work
- They did not receive guidance on their creative skills and thus these skills were often neglected by Normal people
- Due to not being financially capable, education is barely available. They required capital for professional and for education and for business. They always fear security from others in the society.
- Without guidance on manners, good habits, and constructive self-development, blinds find it difficult to navigate social life and relationships.

Proposed Project for Grant

Working Hostel

Need of this project-

Due to rising inflation and rising house rents in Mumbai and Thane cities, blind and disabled people find it very difficult to earn a living in these places. Physically weaker sections are neglected in the fast forward dynamic era of society. To solve this, we are providing the facility of Men's Working Hostel through our organization in the village of Vangani in Ambarnath Taluka of Thane district, Maharashtra.

Purpose of Project-

NATIONAL FEDERATION OF VISUAL IMPAIRED PERSONS social organization has been working for the economically weaker and baseless blind and disabled people of Mumbai and thane cities. Blind and disabled people in the society live independently and with dignity and self-employment without depending on others, without expecting help from others. They should get a safe, stable and rightful home. Facilitate nutrition and physical examination for good health. To enable visually impaired individuals to overcome the barriers that impede their independence and participation in society.

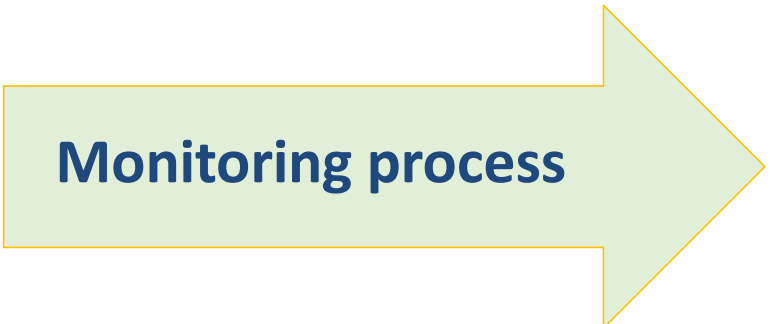

Objectives-

- Education Assistance to socially and economically weaker sections
- Provide skill based education- required for future employment
- Enhancing the knowledge and personality development
- Career guidance
- To provide support to ground level education ecosystem and increase community participation through volunteering

Scope & Reach

- With a focus on clarity of educational concepts.
- Skill based education.
- Education assistance to the blinds.
- Organize awareness program.
- We shall reach 50 to 100 Blind & disabled.
- We shall provide employment opportunities to the youth in future.

Monitoring process

**Orientation and Training to
hostel Co-ordinator.**

**Weekly & monthly follow up meeting/
Monthly report.**

**Monthly monitoring progress and performance
of blind people.**

Expected Impact

- Good living conditions, nutritious food will improve the mind and body.
- Skill based education can be imparted to economically blind and disabled brothers which will increase their chances of getting employment.
- Disrespect in the society will be significantly reduced.
- By building self-confidence, you can earn your own living.
- Collective living and collective learning activities will be socially enriching.

Beneficiaries

- Initially, we are aiming to reach 50 to 100 Blind and disabled people.
- To benefit Socially and Economically underprivileged Blind and disabled people.
- Homeless blind and disabled people.
